

wayland::proxy_t

```
graph BT; A[wayland::data_offer_t] --> B[wayland::proxy_t]
```

The diagram illustrates an inheritance relationship between two C++ classes. At the bottom is a gray-shaded box containing the text 'wayland::data_offer_t'. A blue arrow points vertically upwards from the top center of this box to the bottom center of a white box with a black border above it, which contains the text 'wayland::proxy_t'. This indicates that 'wayland::data_offer_t' is a base class and 'wayland::proxy_t' is a derived class.
